21st Anniversary Kitchens in the Vineyards April 27 & 28, 2018

2018 marks the 21st Anniversary of the popular *Kitchens in the Vineyards* home and garden tour in the Napa Valley. On Saturday, April 28, five gorgeous St. Helena residences will open their doors for the event, all to benefit the summer chamber music festival, *Music in the Vineyards*. The highly anticipated, self-guided tour is open from 9:30 a.m. to 4:30 p.m. and features statement kitchens, outdoor entertaining, published design, and Napa Valley living at its finest. Homes are styled by professional designers and florists whose talents highlight each home's unique character with the bounty of spring.

2018 Preview Party: Friday, April 27, 2018 4:00pm ([Click here to learn more](#))

2018 Home Tour: Saturday, April 28, 2018 9:30am ([Click here to learn more](#))

Here's a Sneak-Peek at the 2018 Tour Homes:

Perched Above the Vines

This modern residence features curved, floor to ceiling glass walls and elevated outdoor entertaining spaces that offer 180-degree views of the surrounding vineyards. Ascend the glass-lined staircase to the second floor, where a great room, kitchen, and master suite are elegantly styled with warm elements to highlight the beauty of the natural landscape.

Natural to the Nines

A collaboration between a well-known local architect and interior designer / owner, this newly built home perfectly captures the essence of modern rustic design. Built on a cozy lot in the heart of town, this home incorporates an old barn and utilizes repurposed materials and creative textures to offer a stylishly serene setting.

Old Stone Sanctuary

Originally built in the 1880s as a winery then abandoned for decades, this stunning stone estate was renovated as a residence in 1980, and again in 2008. Nestled in town, enter the gates and stroll through the charming rose gardens to the grand ebony and walnut doors. The elegant interior features a curved staircase, a massive custom mantel, coffered ceilings, and a formal dining room.

Prefabbed to Perfection

In light of the recent fires that affected our community, we are featuring a beautiful prefabricated home to inspire those who are looking to rebuild. A modular concept constructed on Mare Island with steel hinges that unfold on site, this family residence offers modern amenities, minimalist design, and is eco-focused with low-water landscaping, solar panels, and electric car chargers.

Wisteria Haven

A traditional ranch style home, recently renovated for optimal entertaining and relaxation. The interior features chic decor, a formal dining room, fireplace, and open kitchen concept. Step out onto the expansive deck and enjoy the lush lawn, lounging areas, vegetable and cutting gardens, and wisteria-laden trellis surrounding the pool.
